

A new revolutionary way to sell and distribute Windows software

Apponfly Inc. is offering to vendors a cloud-based remote desktop service that empowers customers to trial or buy Windows software instantly from any platform.

SAN FRANCISCO, CALIFORNIA, UNITED STATES, January 25, 2016
/EINPresswire.com/ -- Start using the Apponfly cloud software distribution channel now and multiply your software sales!

Software vendors have now a new way of bringing their Windows desktop software to customers from the cloud in 30 seconds. The customers will get instant access to the vendor's software of their choice whenever and wherever they need to use it, i.e. on Macs, iPhones, tablets, Windows desktops or Android smartphones. The users are welcome to trial or buy the apps instantly, and then pay for them on a monthly basis.

Apponfly creates a page unique to the vendors' software offering where their customers can sign up for a free trial or see how the software will run in the cloud. When the trial period expires the users can subscribe to the particular software on a pay-by-month basis.

A new revolutionary way to sell and distribute Windows software"

Vaclav Svatek, CEO Apponfly

One additional function available for vendors is the AppOnFly Vendor Dashboard that provides the vendors with the stats about their apps usage, including how many users have signed up for a free trial, and how many users have purchased the application.

Sign up for a vendor account now

About AppOnFly:

Apponfly Inc. is an online cloud distributor of Microsoft Office, [Microsoft Project](#), or Microsoft Visio and Visual Studio and statistical software such as [IBM SPSS](#), NCSS10 or R Project.

Bringing your Windows desktop apps to your customers from the cloud in 30 seconds

No downloading, no installing, no waiting.
Customers will get instant access to your app.
Whenever and wherever they need it.

Trial or buy your app from

apponfly.com

We create a page unique to your app where customers can sign up for a free trial of your app, try a new version if available, or see how it will run in the cloud. Of course, they can also purchase your app on a pay-by-month basis.
