

Contex Scanner Nominated for Reader's Choice Awards. Will we win again?

Following three consecutive awards, Contex is delighted to announce that the Contex SD One has been nominated for Wide Format & Signage Scanner of the Year.

CHANTILLY, VIRGINIA, USA, January 26, 2016 /EINPresswire.com/ -- Following three consecutive awards for Scanner of the Year, [Contex](#) is delighted to announce that its latest release, SD One, has been nominated as the Readers' Choice Scanner of the Year by [Wide Format & Signage](#).

Nominated in the Prepress: Wide-Format Scanner 24 inches + category, the Contex SD One stands out as the most flexible scanner on the market. As a true large format scanner which is both lightweight and powerful, SD One is just as much at home in a reprographics shop as on a construction site.

"SD One has options which make it suitable for a huge variety of applications. It's direct scan to cloud functionality means it is perfect for collaboration, while optional software solutions provide full color management and copy functionality," says Steve Blanken, General Manager, The Americas.

SD One complements the existing Contex product portfolio which includes the award winning HD Ultra. HD Ultra won Wide Format & Signage's Readers' Choice Scanner of the Year for three years running from 2012 to 2014. Contex hopes that Wide Format & Signage readers agree their latest introduction, SD One, is the best scanner on the market today.
