

NSM Music Offers 50% Off Popular Icon Lite Jukebox

Digital Jukebox Giant Slashes Price for New Year

ELMHURST, IL, USA, January 27, 2016 /EINPresswire.com/ -- There's more than one way to keep patrons happy, and many business owners have discovered the power of the electronic [jukebox](#). NSM Music has a wide variety of options available, but for now there's one choice that won't be available 50% off for long - the [Icon Lite](#).

Packed With Features

The Icon Lite is a wall mounted [digital jukebox](#) with access to over 300,000 audio tracks online. It includes a 19" Infra-Red Touch Screen and a number of input and output options including HDMI outputs and Auxiliary inputs and outputs.

"The Icon Lite is easily one of our best sellers for a variety of venues. We built it with a dual core processor and graphics that are far faster than previous versions, and that can certainly make it more user friendly. The aesthetics are a real plus too - black metallic casing fits almost anywhere," said Tony Lantz V.P., Operations.

User-Centered

Perhaps the best aspect of the Icon Lite is the fact that it's completely centered on your tastes and preferences. Customers can customize the look of the graphics to help meet their needs, and there's a local advertising function that allows venue advertisers to help push upcoming options and events. It even includes bookkeeping data so you know how much you're making and what your hottest times are.

"The Icon Lite is a great starter model. It packs in almost everything a facility might want, but has a very nice price tag, especially with this lower price," said Gurbakhash Sanghera, President.

If you've ever thought about adding a jukebox to your establishment, there's no time like right now to do just that. Contact NSM to learn more.
