

# Updated SwappyDots on Mobile Offers Unique New Puzzle Concept with Refreshing Gameplay and Features

*SwappyDots is Not Your Classic Match-3 Puzzle Game on Android, iOS and Windows Phone*

BUDAPEST, BUDAPEST, HUNGARY, January 31, 2016 /EINPresswire.com/ -- SwappyDots on iOS, Android and Windows Phone by indie game developer Code2Game was recently updated to include new modes of play adding more fun and additional challenges to the game. SwappyDots is not your typical match-3 puzzler and offers refreshing gameplay and cool new features.

MATCH-3 PUZZLE GAME LIKE YOU'VE NEVER SEEN BEFORE

SWAP THE DOTS WITH THE HOLE TO GET 3 OR MORE COLOR MATCHES

GET MORE ADVANTAGE WITH 4 OR MORE MATCHES AND MATCHES WITH BONUS DOTS OR BLACK DOTS

ANDROID APP ON Google play | Download on the App Store | Download from Windows Phone Store

Unique puzzle game on iOS, Android and Windows Phone

## Unique Game

SwappyDots is a [unique match-3 puzzle game](#): unlike similar games in the genre color matching is achieved by swapping the dots with the hole, as opposed to swapping with other dots. It may seem just a small difference but the result is a totally unique and outstanding game.

This game is not just another Bejeweled clone – it's a whole new animal.

## New Game Modes

SwappyDots is about creating 3 or more color matches on a grid. In the original Time- and Step-modes of play, you needed 4 or more color matches to get bonus dots, and matches with the bonus dots offered extra time or additional

moves and black dots. Matching the black dots created score multipliers. In the new Lightning-Step and Lightning-Time modes of play, it is enough to get 3 color matches to achieve bonus dots, and because the initial number of moves has been raised from 60 to 90, matching bonus dots no longer offers additional time or moves. Score multipliers are still possible by matching black dots. The addition of Lightning mode adds more fun and further challenges to an already excellent game with its faster gameplay, higher scores and effects.

## Other Features

SwappyDots is rich on features and is suitable to players of all ages and experience levels. With 4 gameplay modes, intuitive swipe-controls, a color-blind mode and excellent sounds and graphics.

## About Code2Game

Code2Game is a mobile development team in Budapest, Hungary, and it was founded by Krisztian Kenedi in 2015. SwappyDots is the team's first entry to the market and will be followed by other

imaginative and innovative games.
