

Perspectives on the Cyber Physical Human World

SMI Group reports: The MITRE Corporation will be presenting at the SMI's 6th annual European Smart Grid Cyber Security conference (7th – 8th March 2016)

LONDON, UNITED KINGDOM, February 3, 2016 /EINPresswire.com/ -- Chris Folk, Director, National Protection Portfolio Division, The MITRE Corporation will be speaking at the SMI's 6th annual European [Smart Grid](#) Cyber Security conference (7th – 8th March 2016) on "Perspectives on the Cyber Physical Human World".

The European Smart Grid Cyber Security event will gather together key opinion-leaders, senior government officials, security consultants, solution providers, international investors, senior engineers and vendors to discover hot industry topics such as the EU Energy Union, standardisation and compliance, implementing secure smart meter networks, protecting your sensitive data, future [technological](#) challenges for smart grid cyber security and much more.

Chris Folk's presentation topics will include:

- In a world with billions of smart, connected devices and countless vulnerabilities – why is resilience essential?
- How is the convergence of cyber systems, physical systems, and humans radically altering our perceptions of defense and security?
- How can we help shape a holistic and integrated perspective (to risk) that accounts for confidentiality, availability, integrity, reliability and safety?

Speaker panel for 2016 includes:

- Stephen Daniels, Strategic Business Advisor, Cyber Security Practice, CGI
- Graham Wright, Head of Global Digital Risk & Security & CISO, National Grid
- Steve Soar, Cyber Security Specialist, Darktrace Ltd
- Adrian Page, DCC Readiness Manager, Smart Metering Customer Programme, E.ON UK
- Mauriche Kroos, Security Officer, CIO Office, Enxsis
- Giovanni Coppolla, Product Manager, Enel
- Roelof Klein, System Engineer/ Consultant, Alliander
- Joe Dauncey, Chair, Energy Networks Association Cyber Security Group, Head of Information Risk & Security, SSE
- David Higgins, Professional Service Manager, CyberArk
- Lionel Jacobs, SCADA Security Architect, Palo Alto Networks

Running alongside the conference will be an exclusive half-day post-conference workshop entitled 'Making Information Security Work for Your Organisation' (Led by IT Governance)
