

OnPage Introduces "OnPage-Connect2" Integration Toolkit for Priority Messaging

Innovative platform brings the power of Priority Round Trip Alerting and Messaging to any application.

WALTHAM, MA, UNITED STATES, February 8, 2016 /EINPresswire.com/ -- [OnPage](http://OnPage.com), a leader in Priority Round-Trip Alerting today introduced the OnPage: Connect2 messaging framework, allowing users to extend their in-house applications with the industry's only cloud-based, two-way Priority Alerting and Messaging.

Using OnPage: Connect2, organizations can quickly and easily integrate OnPage with a wide variety of business systems such as Service Desks, Telephony Systems, Remote IT Monitoring tools, CRM systems, EMS, and Security systems. In short, they can Connect2_ just about anything.

Customers who leverage the new integration toolkit gain access to powerful OnPage platform services including message

dispatching, monitoring, audit trails, message prioritization with escalation, and user presence.

"Using OnPage: Connect2, I easily completed configuring OnPage and SolarWinds to send pages to the scheduled on-call person and it works perfectly, as we knew it would," remarked Mark Snyder, Systems Analyst of Canacord Genuity Corporation of Vancouver, B.C.

“

We have always been a customer-driven company. Clients with an immediate need for integration should NOT have to wait for the vendor to tell them what integrations are next on the roadmap.

Roger Hodskins - VP WW Sales and Alliances

Based upon the latest release of the OnPage REST API, OnPage: Connect2 provides a comprehensive toolkit for message integration including an OnPage sandbox, REST API, documentation, and sample integration code. Integration can start simply with email and expand as the user requirements evolve to accommodate a wide variety of communication protocols, systems, and use cases.

"We have always been a customer-driven company," said Roger Hodskins, VP of WW Sales & Alliances at OnPage. "We don't believe clients with an immediate need for

OnPage - Never Miss a Critical Alert!

- ✓ Create groups and escalation policies to ensure alerts get attended to promptly.
- ✓ View time-stamped audit trail for team responsiveness in real-time.
- ✓ Use OnPage 'High Priority' for Team communication and event's updates

integration should have to wait for the vendor to tell them what integrations are next on the roadmap. Instead, we have found that by empowering our users with the industry's easiest integration toolkit they will push the boundaries on how to gain benefit from our platform. And they have proved us correct."

OnPage:Connect2 has already been leveraged to produce integrations to several premier business systems including [ConnectWise](#), Remedy, Nagios, OpsView, SolarWinds, Salesforce.com, Kaseya, Autotask, and Cisco VoIP Telephony systems. Many more are on the way.

About OnPage:

OnPage is the industry leading Smartphone application system for Global, High-Priority, Real-Time Enterprise Messaging, Cybersecurity Intrusion Compliance and IT Alert Management. The OnPage application addresses the need for critical incident response management and secure time-sensitive messages.

OnPage takes mobile communications to the next level with the latest all-in-one-app features, including the ability to set priority level for each message to ensure the High-Priority messages receive immediate attention. Additionally, the new web based On-Call scheduling management tool enables enterprise users to plan ahead and route prioritized messages to the right person, on the right day, at the right time.

Thousands of IT Professionals, [healthcare providers](#), doctors, field engineers, law enforcement, nurses, emergency responders and disaster recovery teams depend on OnPage rock solid reliability every day.

Leading corporations, including Blue Chip organizations have adopted OnPage for critical alerts and secure messaging. For more information visit: <http://OnPage.com>
