

Feel Safe and secure driving in the wet with this perfect Valentine's day gift.

Checking tire pressures made easy with this loving gift that improves road handling in inclement weather.

NEW YORK, UNITED STATES, February 11, 2016 /EINPresswire.com/ --

Increasing numbers of Amazon buyers have discovered the simple, easy to use Travelsafer [Digital tire pressure gauge](#) to ensure accurate measurement of tire air pressures as blizzards engulf the eastern states.

Since Travelsafer released their digital tire pressure gauge online in 2015, it has received over 500 positive reviews on Amazon and has become # 1 Best Seller in tire pressure monitoring systems.

Face it, who wants to fight awkward tire pressure gauges at the gas station in the pouring rain or blizzard conditions? No one! But that's probably when you should be checking your tire pressure.

For every 6-degree temperature decrease, tire pressure drops between one pound per square inch. Sudden storms can mean your car tires no longer have a good grip on the road. It's so easy to check your tire pressures before heading out with the Travelsafer digital tire pressure gauge that fits easily in the glove box. Perfect for teenagers, us women that don't want to fuss with heavy gauges, and even grandma.

Maintaining proper tire pressure has never been easier. Feel secure knowing your tires are going to hold the road

better in stormy weather and save money on fuel costs too. Properly inflated tires minimize risk of tire failure by reducing tread movement and rolling resistance, and increasing water dispersion in the wet.

A loving gift on Valentine's Day

Illuminated nozzle for ease of use day or night

Remember, tires underinflated by 25 percent or more, are 3 times as likely to be cited as critical events in the pre-crash phase so keep your loved ones safe on our roads with this inexpensive gift.
