

TrackingTheWorld Releases Extended Life Battery Pack for Covert Tracking

TrackingTheWorld's extended life battery pack for the EnduroPro 3G tracking device is ideal for covert tracking operations.

BURLINGAME, CA, USA, February 16, 2016 /EINPresswire.com/ -- TrackingTheWorld has released a powerful extended life battery pack for [covert tracking](#) with the firm's Enduro Pro tracking devices. The external GPS battery pack has the capability to extend battery life from one to three weeks based on the user's chosen reporting frequency, and the amount of time the tracker is in motion. The case is equipped with 4 recessed magnets to quickly and firmly mount on any car frame or other magnetic surface

The durable battery case contains an 8.5-amp/hr. lithium polymer rechargeable battery, and a space to insert the tracking device. The pack also includes a cable for connecting the tracker to the extended life battery and charger.

Water resistant, the [undercover tracking](#) battery case is compact, measuring just 2 X 3.6 X 4.3 inches. The device automatically conserves power by hibernating when the connected tracker senses no motion.

In addition to covert tracking applications, the battery pack may also be used for fleet tracking, asset protection, law enforcement applications, and personal use.

TrackingTheWorld, based in Burlingame, California, exclusively specializes in [GPS tracking software](#), trackers, covert tracking, and accessories. Founded in 2003, the firm offers a wide variety of GPS tracking devices, accessories, and revenue sharing plans for GPS tracking dealers. For more information, please call 650-692-8100, email sales@trackingtheworld.com, or visit www.trackingtheworld.com.
