

Syncplify's new v4.0 SFTP and FTPS server for Windows released

Syncplify.me Server! version 4.0 has been released, featuring Virtual File Systems (VFS), ECDSA key exchange, management via secure REST API, and more.

WILMINGTON, DE, USA, February 17, 2016 /EINPresswire.com/ -- [Syncplify](http://Syncplify.com), Inc., young and dynamic US-based software development company, has just released a brand new major version of its Syncplify.me Server!, SFTP and FTPS secure file transfer server for Windows.

Syncplify.me Server! version 4.0 is not just an improvement over the previous versions, the architecture has been redesigned from the ground up to deliver an even greater level of security while adding manageability via REST API, a brand new and web-based Configuration Manager, support for virtual file systems (VFS), as well as advanced impersonation and isolation features.

This new version of Syncplify.me Server! is also ideal for those users who need to comply to the latest versions of the PCI-DSS and HIPAA regulations, as it features advanced anti-tampering techniques for its administrative logs using an "indexed rollover" digital signature methodology.

"We have been listening to our customers' requests and needs, actively working with them, to carefully design and develop our best SFTP and FTPS server to date," said Fjodr Soyevskji, Chief Technology Officer at Syncplify, Inc.

"We have developed our new version 4.0 in close contact with some of our biggest customers, Fortune 500 companies and Governments, to make sure our product stands up to their toughest secure file transfer requirements," said Helga Kessler, Chief Operation Officer.

Syncplify.me Server! v4.0 is free for personal use, and paid licenses are available for any other

use. Corporate and custom licensing options are also available upon request.

About Syncplify

Syncplify, Inc. is a young and dynamic ISV that aggregates several software designers and developers from around the world, each of them with at least 15 years of experience in secure file transfer solutions. Syncplify provides corporations, government and financial institutions, and several law-enforcement and security agencies with the most secure file transfer server and client software.
