

# Global Vision Announces the Release of Proofware 2.0

*New web-based, all-in-one suite of quality control applications to inspect digital files and identify errors before going to print*

MONTREAL, CANADA, February 18, 2016 /EINPresswire.com/ -- [Global Vision](#), the world leader in the development of innovative proofreading technologies, today announced the release its web-based, all-in-one suite of quality control applications, [Proofware 2.0](#).

Proofware 2.0 brings an advanced suite of application tools focused on delivering accuracy and traceability for Quality Control, reducing artwork rework cycles and cost.

Proofware

## Proofware 2.0 New Feature Set

- Redesigned user interface - New keyboard shortcuts and multi-monitor support.
- Cropping features - Ability to crop multiple pages of all sizes, resize the crop area, and auto crop to the artwork area.
- Adobe Illustrator support features - AI file support. Opens Adobe Illustrator files directly.
- Verification features - Braille and barcode verification is now integrated into ArtProof and [DocuProof](#).
- Multi-page / booklet inspections.
- Text comparison in ArtProof.
- Complex layout handling - Automatic processing of QRD templates for fast comparison to artwork.
- Annotation features - New Annotation Checklist for quick review of changes and call-outs to insure all the right corrections are made.

"Protecting our clients from errors is at the core of everything we do, and one way that we uphold this commitment is by constantly advancing and enhancing our solutions based on our partners' changing needs," explained Reuben Malz, President of Global Vision. "With the enhanced feature set of Proofware 2.0, we are again bringing Quality Control inspection technologies to all new levels."

Leader in proofreading technologies for 25 years
