Picture Library

Yes, you can upload the picture on one side of the world and it will appear on the other within minutes without the recipient having to do anything, great for those who are not into technology. Just setup the iPad, connect it into the internet, and power it up, then open the app, and off you go.

Uploading pictures and annotating them with a title and description is easy, once loaded they will be displayed automatically in a slideshow. The title and description are great for letting people know what the picture is about. You can remove or replace a picture at anytime so you can make sure that the slideshow is always up to date. To minimize internet usage the pictures are cached on the device and only downloaded when a picture is changed.

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 8.0 or later
- * Universal Application
- * 10 MB
