

# New Book about Electronic Health Records for Quality Nursing and Health Care

*Foundational knowledge and understanding of the implementation and use of electronic health records (EHRs); appendices provide supporting material and examples*

LANCASTER, PA, USA, February 24, 2016

/EINPresswire.com/ -- DEStech Publications announces the publication of "[Electronic Health Records](#) for Quality Nursing & Health Care", edited by Tiffany Kelley, Ph.D. with a forward by W. Ed Hammond.

This comprehensive reference provides foundational knowledge on electronic health records (EHRs) for the delivery of quality nursing care. Explains the system design life cycle of an electronic health record implementation. Provides methods for evaluating patient and population health outcomes. Chapters cover descriptions of EHR components and functions, federal regulations within the HITECH Act, privacy and security considerations, interfaces and interoperability, design, building, testing, implementation, maintenance and evaluating outcomes. Key reference for nurse executives, nurse directors, nurse managers, advanced practice nurses, nurse researchers, nurse educators, and nurse informaticists.

"Electronic Health Records for Quality Nursing & Health Care", by Tiffany Kelley, Ph.D., is published by [DEStech Publications, Inc.](#), best known for advanced publications in engineering and health science. February 2016, 495 pages, 6x9, soft cover, ISBN 978-1-60595-071-6, Price: \$84.95. Follow the link above (Electronic Health Records) to examine 20% of the book. [Table of Contents](#) is also viewable.

“

I strongly recommend this book for your book shelf, whether you use this book for teaching or for class material. Dr. Kelley has grasped the flow and development of the field for the reader.
