

Ameri100 Partners with Blue Prism to Offer Customers Robotic Process Automation (RPA) Services

Blue Prism offers Customers Robotic Process Automation helping Ameri100 customers complete core operations more efficiently, accurately and securely.

PRINCETON, NJ, USA, February 24, 2016 /EINPresswire.com/ -- Ameri100, a Technology Management Solutions company headquartered in Princeton, NJ, today announced that it has partnered with Blue Prism, the leading developer of enterprise [robotic process automation](#) (RPA) software, to help drive Ameri100's [Digital Transformation](#) practice and enhance customer success management for its clients.

To gain market advantage in today's highly competitive landscape, enterprises are increasingly seeking solutions to help them expedite operational processes, increase agility and deliver greater value to customers. By partnering with Blue Prism, Ameri100 will now enable clients to complete administrative, back-office tasks with optimal agility. By delegating these processes to a virtual digital workforce of software robots, company employees will be able to focus on more strategic, creative and customer-facing initiatives.

Ringo Rajagopal, Executive Vice President, Digital Transformation & RPA, Ameri100, said, "Blue Prism's 'software robots' are business process agnostic, and we are confident in their ability to help our customers realize their true business potential. Ameri100 is at the vanguard of Digital Transformation, and we believe that robotic automation of processes will contribute significantly in helping businesses realize the next level of operational efficiencies."

Alastair Bathgate, CEO, Blue Prism, said, "Ameri100 is an industry trailblazer and we look forward to teaming up with the company to bring software robots to its client roster. By partnering with Ameri100, we aim to help forward-thinking organizations use their human and robotic resources to their fullest potential, thereby increasing business efficiency, improving customer service and paving new avenues for innovation."
