

Local Governments Adopt Technology To Simplify The Execution of Strategic And Operational Plans

The City of Scottsdale and the City of Goodyear adopt strategy implementation, performance management, and reporting software

SURREY, BRITISH COLUMBIA, CANADA, March 2, 2016 /EINPresswire.com/ -- Envisio Solutions Inc., a cloud-based [strategic plan implementation](#), performance management, and reporting software, announced today the addition of two government customers who are using Envisio to drive cross-departmental collaboration, improve reporting to Council, and promote community engagement.

The City of Scottsdale and the City of Goodyear have implemented Envisio across their respective organizations to assist them with their strategic plan implementation and reporting process. From a single dashboard, Envisio will deliver a user-friendly, visually-appealing,

and interactive experience that gives city managers full visibility into the progress of their municipality's [strategic and operational plans](#). In addition to full access to real time, rolled-up performance metrics and staff commentaries, these two cities can access detailed progress reports that can be shared instantly with Council and residents.

“

Envisio gives innovative city executives a feature-rich, easy-to-use alternative to confusing spreadsheets, while allowing them to operationalize their plans and hold staff accountable for outcomes.

Mike Bell, CEO

"The cities of Scottsdale and Goodyear, Arizona join a growing number of innovative local governments that are embracing technology to create dynamic and engaged workforces. Through Envisio, they will be able to build the new accountability frameworks that today's residents demand. We are pleased to include these forward-thinking cities in our growing list of customers" says Mike Bell, CEO of Envisio.

Envisio has easily adapted to Scottsdale and Goodyear's unique planning needs and provides each city's administrators with [real time performance measurements](#) and management dashboards that cascade down in execution and roll up during

reporting. Engaging department directors and enabling visibility into the status of their government's strategic plans empowers their senior leadership team with the information they need to make quality and timely decisions.

"Envisio gives innovative city executives a feature-rich, easy-to-use alternative to confusing spreadsheets and static documents, while allowing them to operationalize their plans and hold staff accountable for outcomes," says Bell.

About Envisio

Envisio is a strategy implementation, performance management, and reporting software provider for local government. Envisio is designed to empower senior leadership teams to achieve council priorities while giving managers full visibility into the progress of the city's strategic and operational plans. Envisio helps forward-thinking municipalities like the City of Edmonds, the City of Surrey, and the Regional Municipality of Wood Buffalo take the implementation process to the next level by engaging city staff, enabling cross-functional collaboration, and aligning departmental operations with a city's strategic priorities.
