

UAE oil and gas operators seeking cost-effective solutions for ageing assets

ABU DHABI, UNITED ARAB EMIRATES, March 15, 2016 /EINPresswire.com/ -- 15 March 2016 –Abu Dhabi, UAE

Oil prices have dipped below US\$30 a barrel for the first time in 12 years - this now puts pressure on oil and gas operators in the Middle East to review their current plans and look for cost-effective strategies and solutions to keep their existing assets safe and in production.

In response to this worrying trend, leading elements of the UAE oil and gas sector are turning to asset integrity management strategies to optimise the operations of their existing assets.

IQPC Middle East has collaborated with leading asset integrity professionals from ADNOC Distribution, ADGAS, ZADCO, BGD Project, Al Hosn Gas and many others who will highlight how they have taken the fall in oil prices as an opportunity to manage their ageing assets.

This [four-day event](#), taking place from 17-20 April 2016 in Abu Dhabi, will also feature solution providers such as ABB Consulting, Nexus Global and others who will showcase how they have helped oil and gas operators manage their assets. Attendees will benefit further by participating in interactive roundtable discussions, Q&A sessions and industry-specific case studies on the latest initiatives taken by other operators in the region.

Keynote speakers include:

- Manmohan Sreedhar, Integrity Department Manager, ADNOC Distribution
- Elaine Harbour, Head of Liaison (Middle East) Health & Safety Executive
- Hicham Houmane, Technical Data Officer, Zakum Development Company (ZADCO)
