

Network and hear from GSK, Roche and Lundbeck at Paediatric Clinical Trials 2016: Preliminary list of attendees released

SMi Group reports (01.03.2016, London): With the conference 2 weeks to go, SMi have released a preliminary list of attendees.

LONDON, UNITED KINGDOM, February 29, 2016 /EINPresswire.com/ -- Taking place on the 16th and 17th March, [Paediatric Clinical Trials](http://www.paediatric-trials.co.uk) returns to London for the 10th annual show. This years' event will focus on the paediatric therapeutic developments, directives and procedures which have been put in place to protect [children](#) taking part in clinical trials.

For further information, please visit the event website www.paediatric-trials.co.uk/ein

With the agenda full of leading industry figures from big pharma, here are 3 key presentations not to be missed.

1. Challenges in Paediatric Drug Development – Developing New Oncology Drugs for Children - Sabine Fuerst-Recktenwald, Senior Medical Director Paediatric Oncology, Roche Pharma. This session will focus on historical adult centric vs. integrated paediatric development as well as long-term safety considerations.
 This years' event will focus on the paediatric therapeutic developments, directives and procedures which have been put in place to protect children taking part in clinical trials.

2. Why Paediatric Development Does Really Matter? Psychopharmacology as a Paradigm - Philippe Auby, Vice President of Clinical Development – Paediatrics, Lundbeck. Philippe will present on several matters including: Considerations for dosing frequency, stability and storage requirements; the impact on the progress and success of clinical trials; improving formulation on the safety profile and efficacy of medicines for children as well as decreasing the risks of adverse drug reactions

3. Challenges of drug development in Rare Diseases – Inhalation Anthrax - Sangeeta Sedani, Clinical Investigation Lead, GlaxoSmithKline R&D. Various topics will be explored including the background to raxibacumab as a recently developed drug for treatment of inhalation anthrax; regulatory challenges and logistical challenges of implementing clinical studies during a public health emergency

To see who will be in attendance amongst Roche, Lundbeck and GSK, please visit the event website www.paediatric-trials.co.uk/ein to download a preliminary list of attendees.

Benefits of attending 2016:

- Discuss the framework of US and EU Paediatric Legislation
- Evaluate approaches for recruitment and retention
- Review the challenges in paediatric drug development developing new oncology drugs for children
- Learn about safety considerations of paediatric clinical trial
- Explore recent development in paediatric trials in the US
- Study the role of analgesics in paediatric population
- Analyse why paediatric formulation does really matter
