

ASTAREAL® GAINS YET ANOTHER QUALITY CERTIFICATION

ASTAREAL® COLD WATER DISPERSIBLE POWDER IS NOW HALAL CERTIFIED

BURLINGTON, NJ, USA, March 3, 2016 /EINPresswire.com/ -- [AstaReal](#), Inc. announced that its parent company, Fuji Chemical Industries Co., Ltd has gained yet another quality certification. On January 28, 2016, Fuji received its Halal certificate from the certifying body, NPO Japan Halal Association which listed AstaReal® [P2AF](#) (2% cold water dispersible powder) as one of the certified products. AstaReal® P2AF is ideal for tableting, two piece hard capsules, and powder pre-mixes for beverage formats.

AstaReal promises to provide high-quality natural [astaxanthin](#) and the current Halal certification confirms that promise. Like Kosher, the idea of Halal foods dates far back into history and not only does it identify which types of food/ingredients are proper to use, but also about how the product is to be prepared and handled. The quality aspect further expands into the maintenance of production facilities as well. Halal certifying bodies set a higher standard of quality, which some believe to be greater than any government agency.

“

AstaReal is truly the most certified and accepted natural Astaxanthin on the global market.
