

Adam Elements launches new iKlips DUO Campaign on Indiegogo

The iKlips DUO is the latest version of the iKlips, which was successfully launched on Indiegogo in the previous year. With the iKlips DUO, it's iOS your way.

TAIPEI, TAIWAN, March 9, 2016 /EINPresswire.com/ -- If you became attached to iKlips the first time round, you will love what we have in store with the new [iKlips DUO](#). It's a design that has been perfected to be more practical, with a redesigned body to fit even more iPhone and iPad cases and a silicone body sleeve for added protection. Losing connector caps is now a thing of the past.

Available in four vivid colours and four storage capacities, iKlips DUO provides you with the necessary extra storage to keep your photos, music and games organized on the go. Like the first iKlips, the new iKlips DUO is also produced with top quality and super high-speed MLC flash memory for iPhone, iPad, and iPad Pro – the fastest flash memory type for iOS devices. In addition to enabling greater speeds, it also provides greater stability and a longer lifespan. And with its gorgeous high-grade aluminum body, you will be wanting to use it as often as possible. It's gorgeous to hold and use.

[iKlips 2.0](#) is the other half of what makes iKlips DUO even better. It is an intuitive app that makes using your iKlips DUO an even easier experience, featuring 3D Touch support, multi-select, Split View, password protection, Drop To, and even integration with Apple's Music app to access your iTunes purchases. iKlips 2.0 is the way you want to manage your device – easily.

iKlips DUO on [Indiegogo](#)

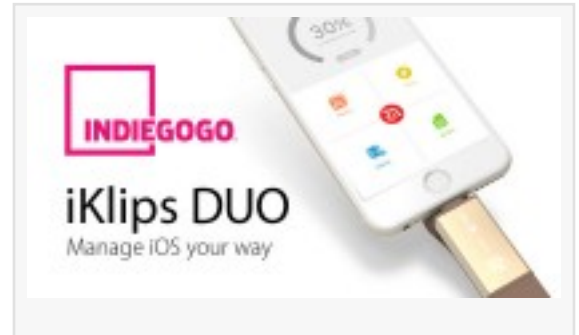

Last year, iKlips was launched in Indiegogo and reached 425% of its initial funding goal by April 2015. This year, Adam Elements plans to repeat this success with the launch of its iKlips DUO campaign. In the hope to reach more people, a successful Indiegogo campaign will help to bring iKlips DUO to the market quicker and cheaper and determine whether to commit iKlips DUO to mass production. Once this goal is reached, more people will be able to enjoy the benefit that it brings to managing content on the go.

If you are curious about the campaign, we invite you to have a look yourself:
