

DCIM symposium to deliver current trends, real-life applications and new feature sets

Symposium with speakers presenting current DCIM trends, real-life applications and new feature sets; also an optional path that includes two training days.

LINCOLN, NEBRASKA, UNITED STATES, March 17, 2016
/EINPresswire.com/ -- Geist announces the Hitchhikers Guide to DCIM: 2016 Symposium to be held at the end of August at the Hilton, Fort Collins, CO. Featuring a number of speakers presenting current DCIM trends, real-life

Hitchhiker's Guide to DCIM
Symposium 2016

August 28-
September 1, 2016
Fort Collins, CO

Early-Bird Pricing Available for a Limited Time!

The banner features a stylized gear with a thumbs-up icon inside, set against a background of green and grey triangles.

applications and new feature sets, there will also be an optional path that includes two training days.

Geist recognizes that customization is key to successful DCIM, so we will help end-users understand how to drive a more efficient data center infrastructure management system based on their unique needs. The symposium design will allow attendees to shape their agenda based on their interests during various break out sessions.

The two supplementary days are intended for in-depth system training on Geist DCIM products and will include one-on-one time with system engineers, product management sessions, and hands-on technical training.

More information can be found <http://www.geistglobal.com/productsdcim/HHG2D-Symposium-2016>. Early bird registration runs through April 15, 2016.

###

About Geist

Geist designs and manufactures intelligent hardware and software for the four cornerstones of datacenter management: Power. Cool. Monitor. DCIM. Independently, each Geist product line offers industry-leading capabilities and technology. Together, these products combine to create a comprehensive system for maintaining a secure and efficient datacenter. With a host of scalable systems for single cabinets, entire enterprises and everything in between, each customer benefits from datacenter infrastructure management (DCIM) solutions custom-fit for their specific needs. Founded in 1948 and headquartered in Lincoln, Nebraska with offices in Asia Pacific and Europe, Geist offers truly global solutions that revolve around customer requirements.
