

# e-Nabler Hosts Annual eMobilePOS Partner Expo and Conference (EPEC 2016) in Puerto Rico

*eMobilePOS to host annual channel-focused POS conference and expo, providing hands-on training and demonstrations of new generation integrated POS solutions*

SAN JUAN, PUERTO RICO, UNITED STATES, March 17, 2016

/EINPresswire.com/ -- e-Nabler Corp., developer of the award-winning POS software [eMobilePOS®](#), announced it will be hosting the annual eMobilePOS Partner Expo and Conference ([EPEC 2016](#)) on March 20-22 at the El Conquistador Resort in Puerto Rico.

EPEC 2016 gathers e-Nabler's entire partner eco system, including POS hardware and peripherals, payment technologies, and third party software solutions—providing a complete EMV compatible POS solution across all platforms.

EPEC 2016 is celebrating eMobilePOS' 2015 trifecta at NHL Winter Showcase, NFL Super Bowl XLIX, and MLB All Star Fanfest. The sports and arena POS market is booming and eMobilePOS and its partners deliver the speed, simplicity, and flexibility that customers demand.

Sponsors of the event include companies such as Claro, Hewlett Packard, Intel, Microsoft, BlueStar, EVO Payments International, CRS, Partner Tech, Star Micronics, Elo Touch, Moneris, KOAMTAC, Handpoint, Samsung, Cayan, SOTI, Sage, Anywhere Commerce, nClose, Discover, RSPA, ScanSource, and several others.

"We are excited to host the second, annual eMobilePOS Expo and Conference and it is a great opportunity for POS resellers and other payment professionals to meet our eco system of eMobilePOS partners and learn about the latest solutions and trends in the world of POS, customer loyalty, and payments," says Joel Vázquez, CEO and president of e-Nabler. "Every component of a POS system has to work in concert with each other, providing a seamless user experience so that our merchants can focus on selling and taking care of the customer instead of worrying about the technology."

This year's conference will be the largest integrated mobile/tablet POS conference for the channel community, providing hands-on training to VARs and integrators looking to tap into the mobile and tablet-based POS market in 2016.
