NEW YORK, NEW YORK, USA, March 29, 2016

[/EINPresswire.com/](http://EINPresswire.com/) -- The Wisconsin Mesothelioma Victims Center says, "The last thing we want to see happen to a recently diagnosed person with mesothelioma in Wisconsin is for them to get shortchanged on compensation because they or their family had no way to differentiate between the nation's most experienced mesothelioma lawyers and a local personal injury law firm that specializes in car accidents.

"Mesothelioma is more common in Wisconsin than most people think because of manufacturing workplaces that contained asbestos in the 1960's and 1970's, along with US Navy Veterans who were exposed to asbestos on navy ships. No matter how a person with mesothelioma in Wisconsin was exposed to asbestos we want to be part of the conversation about compensation and a individual with mesothelioma or their family can call us anytime at 800-714-0303 for some very good advice about what to do after the news of a confirmed mesothelioma diagnosis."
