

Integrity Life Sciences Installs Axiom Worldwide's DRX9000 in Russia's Hospital of the Presidential Administration

TAMPA, FLORIDA, USA, October 14, 2015 /EINPresswire.com/ -- Integrity Life Sciences, in partnership with Axiom Worldwide, INC, announced that it has recently installed the DRX9000 medical

devices in the No. 1 rated hospital in all of Europe. The devices are installed in cooperation with the ruling political party of United Russia and its dedicated workers from the staff of President Vladimir Putin of Russia, in Moscow. The prestigious Central Clinical Hospital of the Presidential Administration of the Russian Federation receives security and protection for its elite dignitary patients and staff from the Federal Guard Service of the Russian Federation. The Federal Guard Service is also tasked with the protection of several high-ranking state officials, including President Putin, and others as mandated by federal law as well as other federal properties where State Officials live and work.

The Central Clinical Hospital was initially established in 1945 to meet the growing demand for returning World War II Military Officials and had a clinical service capacity of 140 beds. Today, the Central Clinical Hospital campus occupies several square miles of pristine real estate near the Kremlin and is a large 1,200 bed facility with state of the art with in-patient and out-patient treatment facilities. Its network of clinics allows patient access to more than in 50 different clinical specialties, 20 diagnostic departments and 5 laboratories and a polyclinic for 600 visits per shift, and averages more than 50,000 patient visits per years.

The Central Clinical Hospital will assist Integrity and Axiom with ongoing commitment to clinical research in promoting the benefits of a healthy back in living a long life in conjunction with the scientific session sponsored by the "National Academy of Active Longevity". Over the most recent years, the Central Clinical Hospital has conducted research work on various sections of medicine with publications in over 60 various doctoral programs and publications. Through the assistance of the United Russia leadership, Axiom and Integrity will seek new US FDA equivalent for the DRX900 with the Federal Service for Surveillance in Healthcare (Roszdravnadzor) in the coming months.

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. Our advanced solution begins with the Integrity Spinal Care System (ISCS)™ and its proprietary iELCiPS Technology™. The ISCS non-surgical spinal decompression modality systems are engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

As a compliment to the ISCS, Integrity offers the very effective Integrity Gel Support Brace™. Our

advanced lumbar support brace is a fitting compliment to non-surgical spinal decompression therapy and was designed as an adjunct therapy for those suffering from back pain due to disc related conditions. The Integrity Gel Support Brace may be used with or without Integrity's non-surgical spinal decompression systems and is an excellent treatment option for the patient to use at home.

In addition, Integrity Life Sciences has been exclusively granted the use of all of the technology, products, US Patent and Trademark Office's assignments, logos and other forms of intellectual property that were created by Axiom Worldwide, INC under the leadership of Jim Gibson from Tampa, Florida. The agreement specifically includes the flagship product DRX9000™, its family of products, and all of its derivatives such as the DRX9000C. Integrity offers support for these products, which includes: sales, maintenance services, and repairs. Only Integrity Life Sciences is Registered with the US FDA as a Factory Authorized - Contract Manufacturer - for Axiom Worldwide and the DRX9000 True Non-Surgical Spinal Decompression Systems™

James Gibson, President of Integrity Life Sciences states "Our partners, in over 50 countries and territories, have the unique opportunity to present a cutting edge medical device, utilizing a clinically validated protocol that restores a patient's quality of life non-surgically and without pharmaceutical or invasive intervention". With a body of published clinical research from around the world will support and strengthen your sales presentation; members of our medical advisory board herald from prestigious institutions such as Johns-Hopkins and The Mayo Clinic just to name a few. In addition, partners will have confidence in a quality product that adheres to the stringent standards mandated by FDA, CE, and ISO. Sales, marketing, and technical training is offered in prestigious locations in Europe, Asia, the Middle East and throughout the United States.
