

Primera LX900 Labels in Canada Now Available via www.DuraFastLabel.ca

DuraFast Label Company offers labels specifically for Primera LX900's die-based inks; Toronto-based business now stocking full selection of LX900 labels

TORONTO, ONTARIO, CANADA, April 6, 2016 /EINPresswire.com/ -- DuraFast Label Company (www.DuraFastLabel.ca), a Toronto based company serving its Canadian customer base with quality color label printing solutions, has made [Primera LX900 labels](#) in Canada available through its website www.DuraFastLabel.ca for Canadian customers and www.DuraFastlabel.com for US customers. DuraFast has engineered the labels specifically for the Primera LX900 color label printer's die-based inks, and offers the labels in varieties including high-gloss, matte, polypropylene and more.

Ideal for short-run label printing, the [Primera LX900 label printer](#) produces professional-quality labels on demand while boasting attractive aesthetics and a fully manageable footprint. Says Basat Khalifa, president of DuraFast Label, "In 2010, the launch of the Primera LX900 label printer was announced by Primera Technology and Canadian manufacturers immediately sat up and took notice. There's a good reason for this: The unit comes at a great price, is easy to use as a desktop printer, produces high-resolution full color labels and prints at 0.8 inches-per-second in its best print quality mode. Even several years since its launch, the Primera LX900 remains one of our best-selling label printers in Canada."

Primera LX900 label roll

The LX900 labels as offered by DuraFast on the company's website – including the high-gloss paper, silver polyester, glossy polypropylene, matte paper, matte polypropylene, clear and white polyester variants – also work with Primera Technology's LX800, LX810 and LX200 color label printers. Further, DuraFast Label Company representatives recommend using LX900 labels with dye-based Primera LX900 ink cartridges for the best print quality when using the LX900 printer.

DuraFast Label Company ships the [Primera labels](#) to customers across Canada from its distribution center in Toronto, utilizing both UPS and Canada Post for quick and efficient delivery. DuraFast remains Canada's premier source for digital label press and finishing systems, label cutters and laminate film, carrying all the leading label cutters and finishing systems in Canada.
