

Qatar is the Latest Gulf Country to Invest in Integrity Life Science's Medical Technology

TAMPA, FLORIDA, UNITED STATES,
December 29, 2015 /EINPresswire.com/
-- Integrity Life Sciences announced the recent installation of the new ISCS, Integrity Spinal Care System in a clinic in

Doha, Qatar. The Country of Qatar has remained a leader in the Gulf Region by implementing new healthcare standards for its citizens.

The Supreme Council of Health, which oversees the health sector, announced the "Qatar Health Facilities Master Plan" (QHFMP) program in 2014. As part of the program, as many as 48 healthcare infrastructure projects are set to be developed in Qatar by 2020. The QHFMP is intended to foster competition between government, state and private health care providers. The Qatar Medical Research Council has been established and the Sidra Medical and Research Center is scheduled to translate research into practical treatments.

Qatar University just recently established its Medical School program in conjunction with Cornell University in New York, USA, and the Weill Cornell Medical College has been training clinicians since 2002 at various locations in the USA and abroad.

Integrity Life Sciences, together with its partner in Qatar is in a great position to take advantage of all Qatar has to offer. Qatar is experiencing exceptional growth and an expanding economy and many construction projects are becoming a fruition as Qatar will host the 2022 FIFA World Cup.

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. Our advanced solution begins with the Integrity Spinal Care System (ISCS)™ and its proprietary iELCiPS Technology™. The ISCS non-surgical spinal decompression modality systems are engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

As a compliment to the ISCS, Integrity offers the very effective Integrity Gel Support Brace™. Our advanced lumbar support brace is a fitting compliment to non-surgical spinal decompression therapy and was designed as an adjunct therapy for those suffering from back pain due to disc related conditions. The Integrity Gel Support Brace may be used with or without Integrity's non-surgical spinal decompression systems and is an excellent treatment option for the patient to use at home.

In addition, Integrity Life Sciences has been exclusively granted the use of all of the technology, products, US Patent and Trademark Office's assignments, logos and other forms of intellectual property that were created by Axiom Worldwide, INC under the leadership of Jim Gibson from Tampa, Florida. The agreement specifically includes the flagship product DRX9000™, its family of products, and all of its derivatives such as the DRX9000C. Integrity offers support for these products, which

includes: sales, maintenance services, and repairs. Only Integrity Life Sciences is Registered with the US FDA as a Factory Authorized - Contract Manufacturer - for Axiom Worldwide and the DRX9000 True Non-Surgical Spinal Decompression Systems™

James Gibson, President of Integrity Life Sciences states "Our partners, in over 50 countries and territories, have the unique opportunity to present a cutting edge medical device, utilizing a clinically validated protocol that restores a patient's quality of life non-surgically and without pharmaceutical or invasive intervention". With a body of published clinical research from around the world will support and strengthen your sales presentation; members of our medical advisory board herald from prestigious institutions such as Johns-Hopkins and The Mayo Clinic just to name a few. In addition, partners will have confidence in a quality product that adheres to the stringent standards mandated by FDA, CE, and ISO. Sales, marketing, and technical training is offered in prestigious locations in Europe, Asia, the Middle East and throughout the United States.
