

# DRX9000 Approved by Russian FDA Government

TAMPA, FLORIDA, USA, February 24, 2016 /EINPresswire.com/ -- In Moscow, Russia, the Federal Service for Surveillance in Healthcare (Roszdravnadzor), the Russian

equivalent of the US FDA, has awarded Axiom Worldwide and Integrity Life Sciences with a new 10 year approval of the DRX9000 True Non-Surgical Spinal Decompression Systems™. The results comes after a full year of contractual requirements and satisfactory fulfillment and ongoing negotiations with various scientific researchers from the Russian government to ensure patient safety and medical efficacy.

Previously, in October of 2015, Integrity and Axiom announced the installation of DRX9000 Medical Devices being installed in the prestigious Central Clinical Hospital of the Presidential Administration of the Russian Federation. The Central Clinical Hospital serves as the main clinical treatment point for the ruling political party of United Russia and its dedicated workers from the staff of President Vladimir Putin of Russia, in Moscow.

"The leadership our partners in Russia have demonstrated has been clear since we first shook hands over 10 years ago, to be the leaders and a model for the Russian population" said President and CEO Jim Gibson. "The goal has always been to remain the leaders in every major medical facility throughout Russia and the CIS countries and the confidence the Russian government has demonstrated with the award of various tenders in major hospitals and now the renewal of a 10 year license is certainly validation on some levels."

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. Our advanced solution begins with the Integrity Spinal Care System (ISCS)™ and its proprietary iELCiPS Technology™. The ISCS non-surgical spinal decompression modality systems are engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

As a compliment to the ISCS, Integrity offers the very effective Integrity Gel Support Brace™. Our advanced lumbar support brace is a fitting compliment to non-surgical spinal decompression therapy and was designed as an adjunct therapy for those suffering from back pain due to disc related conditions. The Integrity Gel Support Brace may be used with or without Integrity's non-surgical spinal decompression systems and is an excellent treatment option for the patient to use at home.

In addition, Integrity Life Sciences has been exclusively granted the use of all of the technology, products, US Patent and Trademark Office's assignments, logos and other forms of intellectual property that were created by Axiom Worldwide, INC under the leadership of Jim Gibson from Tampa,

Florida. The agreement specifically includes the flagship product DRX9000™, its family of products, and all of its derivatives such as the DRX9000C. Integrity offers support for these products, which includes: sales, maintenance services, and repairs. Only Integrity Life Sciences is Registered with the US FDA as a Factory Authorized - Contract Manufacturer - for Axiom Worldwide and the DRX9000 True Non-Surgical Spinal Decompression Systems™

James Gibson, President of Integrity Life Sciences states "Our partners, in over 50 countries and territories, have the unique opportunity to present a cutting edge medical device, utilizing a clinically validated protocol that restores a patient's quality of life non-surgically and without pharmaceutical or invasive intervention". With a body of published clinical research from around the world will support and strengthen your sales presentation; members of our medical advisory board herald from prestigious institutions such as Johns-Hopkins and The Mayo Clinic just to name a few. In addition, partners will have confidence in a quality product that adheres to the stringent standards mandated by FDA, CE, and ISO. Sales, marketing, and technical training is offered in prestigious locations in Europe, Asia, the Middle East and throughout the United States.
