IT Governance celebrates ten years supporting customers' management system projects with documentation toolkits

ELY, UNITED KINGDOM, April 7, 2016 /EINPresswire.com/ -- IT Governance, the leading supplier of cyber security, risk management and IT governance products and services, is celebrating ten years supporting over 4,000 customers' management system projects worldwide using documentation toolkits: www.itgovernance.co.uk/integrated-management-systems/celebrating-10-years.aspx/?utm_source=media&utm_medium=pr

The documentation toolkits have been developed by IT Governance Publishing (ITGP), a division of IT Governance.

Alan Calder, CEO and founder of IT Governance, said: "We're proud to have been supporting our customers for ten years with our documentation toolkits. In that time, we've developed into market-leading suppliers of documentation templates that can be used by companies of all sizes to streamline their management system or compliance projects."

ITGP's documentation toolkits consist of pre-written templates, policies and procedures designed to help businesses implement management system standards and/or compliance projects. The toolkits have been proven to save on time and project costs, as well as reduce the risk of error, while simplifying the route to compliance.

Drawing on ten years of practitioner-led development and customer feedback, the toolkits cover a comprehensive range of management systems and compliance activities, including information security, data protection, quality management, business continuity, energy management, service management and many others.

The documentation toolkits have helped thousands of our customers to achieve their objectives and comply with world-class best practice and management system standards.
