

Vyapin Office 365 Management Suite is enriched with new powerful features now

A new version of Vyapin Office 365 Management Suite (v3.0) has been released with additional features with more power and flexibility in managing Office 365.

CHENNAI, TAMIL NADU, INDIA, April 7, 2016 /EINPresswire.com/ -- Vyapin has now released their much awaited version 3.0 of their Office 365 Management software. The software is specifically designed to work off the Desktop to enable existing IT admins and managers to take advantage of their existing infrastructure without having to sign up for cloud based management services.

The new version has several important enhancements, some of them based on valuable customer feedback, such as Rule-based License management, powerful security reports for SharePoint Online and One Drive, Compliance reports for Users, Groups and mailboxes, PST Export of mailboxes and Public Folders, a comprehensive Security Impact Report for Users and Groups, Mailbox permissions management and more. The new features make Vyapin Office 365 Management Suite a must-have tool for customers to manage their Office 365 environment without compromising on security and compliance.

Partial list of useful and important features in Vyapin office 365 Management suite
