

Background Screening Services Provider Global Verification Network Adds RedRidge to Team

Expanding the ways it can serve its clients, Global Verification Network Has Recently Acquired Custom Screening Company RedRidge Verification Services.

CHICAGO, USA, April 7, 2016 /EINPresswire.com/ -- As of January 1, 2016, Global Verification Network (GVN), leading provider of background screening services, acquired custom screening solutions provider RedRidge Verification Services (RVS). All of RVS's assets are now under the ownership of P2 Verification Services LLC DBA Global Verification Network, which offers the same quality service and professionalism that has defined its operations since its inception.

As part of this new merger, GVN retained all existing personnel, and Mr. Mark Buchmann, a longtime leader at RVS, has stepped into the new role of CEO at GVN. "We saw the acquisition of RVS as the cornerstone to a network of services that GVN will be providing to its clients," Buchmann stated. "As we grow, GVN will continue to service a variety of financial services, staffing and housing sectors with the outstanding service, quality results and incredible dedication to our clients that had been a hallmark of the RVS brand. It is our dedicated and professional staff that provide our customers with such a high quality service that makes this company special."

Buchmann, who helped RVS establish its leading role in the screening industry before he moved on to RedRidge Capital Advisors and other leadership roles at the company, brings a history of multiple management positions in IT and banking to this new position. He is also a proud U.S. Navy veteran, who holds a bachelor's degree in Information Systems and an executive MBA from Northwestern University's Kellogg School of Business.

Regarding GVN, Buchmann said, "First and foremost, we are an organization designed and dedicated to providing a superior level of customer service — and it is our heartfelt desire to carry this core principle forward. We know our customers depend upon our quality services, and we have no intention of changing that now or in the future."

Mr. Christian Moore, Chief Operating Officer at GVN and Licensed Private Detective, remarked, "Keeping this group together was a key issue for me during the negotiations of the asset sale. This team is amazing and a joy to work with."

To serve its large client base that extends nationwide, GVN plans to keep its corporate headquarters in Chicagoland as well as its existing office in Florida. The company further plans to open offices in Raleigh, North Carolina and near Philadelphia, Pennsylvania within the year, with other offices planned after that.
