

The ISCS™ to be installed in new UAE Military Hospital

TAMPA, FL, UNITED STATES, March 29, 2016 /EINPresswire.com/ -- Team Integrity recently announced in Abu Dhabi, United Arab Emirates (UAE), that Integrity Life Sciences has been

successful in securing vital hospital space for the new UAE Military Hospital to serve the whole of the UAE's armed forces. With final completion anticipated in May 2016, the new facility will also serve as a teaching center with a focus on cardiology, orthopedics, pediatrics and burn care.

Integrity Life Sciences announced that it has been awarded a tender for multiple ISCS™ machines to be installed in the new Zayed Military Hospital in Sharjah, United Arab Emirates (UAE). The Abu Dhabi Command of Military Works has ordered the new Zayed Military Hospital to replace its current facilities which date back 45 years. The new medical center's design specifications include a 260-bed medical and surgical hospital, a 40-bed psychiatric hospital, a women's services building, security facilities, a mosque and a utility plant.

The design and architecture firm in charge of the project has a wide range of experience to include the construction of US military hospital projects at Fort Riley, Kansas and Fort Stewart, Georgia and is one of the top design firms in the world. The hospital designer has already worked in Abu Dhabi on a center for children's health and a similar establishment for the use of police officers.

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. Our advanced solution begins with the Integrity Spinal Care System (ISCS)™ and its proprietary iELCiPS Technology™. The ISCS non-surgical spinal decompression modality systems are engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

As a compliment to the ISCS, Integrity offers the very effective Integrity Gel Support Brace™. Our advanced lumbar support brace is a fitting compliment to non-surgical spinal decompression therapy and was designed as an adjunct therapy for those suffering from back pain due to disc related conditions. The Integrity Gel Support Brace may be used with or without Integrity's non-surgical spinal decompression systems and is an excellent treatment option for the patient to use at home.

In addition, Integrity Life Sciences has been exclusively granted the use of all of the technology, products, US Patent and Trademark Office's assignments, logos and other forms of intellectual property that were created by Axiom Worldwide, INC under the leadership of Jim Gibson from Tampa, Florida. The agreement specifically includes the flagship product DRX9000™, its family of products, and all of its derivatives such as the DRX9000C. Integrity offers support for these products, which includes: sales, maintenance services, and repairs. Only Integrity Life Sciences is Registered with the

US FDA as a Factory Authorized - Contract Manufacturer - for Axiom Worldwide and the DRX9000 True Non-Surgical Spinal Decompression Systems™

James Gibson, President of Integrity Life Sciences states "Our partners, in over 50 countries and territories, have the unique opportunity to present a cutting edge medical device, utilizing a clinically validated protocol that restores a patient's quality of life non-surgically and without pharmaceutical or invasive intervention". With a body of published clinical research from around the world will support and strengthen your sales presentation; members of our medical advisory board herald from prestigious institutions such as Johns-Hopkins and The Mayo Clinic just to name a few. In addition, partners will have confidence in a quality product that adheres to the stringent standards mandated by FDA, CE, and ISO. Sales, marketing, and technical training is offered in prestigious locations in Europe, Asia, the Middle East and throughout the United States.
