

Expansion into Latin American Markets by Team Axiom Integrity Continues with Installation Prior to the AOOS Meeting

TAMPA, FLORIDA, USA, December 31, 2015 /EINPresswire.com/ -- Integrity Life Sciences announced that its market share into the Latin American corridor continues to grow with the latest

installation of Axiom Worldwide's DRX9000 True Spinal Decompression System into an orthopedic surgical practice in Nicaragua. The treatment facility has a team of orthopedic surgeons that partnered with Axiom Integrity™ in learning about the technology and in training their staff of surgeons. The goal was to formulate a plan for installation prior to the Annual Meeting of the American Academy of Orthopedic Surgeons (AAOS) in Orlando, Florida. AAOS has grown into the world's largest medical association for musculoskeletal disorders and serves more than 39,000 members globally. Axiom Integrity successfully met the installation goal as surgeons from the clinic traveled to the US for lectures and continued education symposiums.

In recent weeks, the lead surgeon had traveled to the USA to visit with Integrity and to tour treatment centers to learn more about the various medical devices and to make the best choice for their practice. Prior to installation, the clinic established a strong interest level in the local community and created base of prospective patients to ensure success. The team of surgeons has already expressed an interest in a second location and is eager to share the clinical data and outcomes from their group of surgeons as patients finish the protocol.

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. Our advanced solution begins with the Integrity Spinal Care System (ISCS)™ and its proprietary iELCiPS Technology™. The ISCS non-surgical spinal decompression modality systems are engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

As a compliment to the ISCS, Integrity offers the very effective Integrity Gel Support Brace™. Our advanced lumbar support brace is a fitting compliment to non-surgical spinal decompression therapy and was designed as an adjunct therapy for those suffering from back pain due to disc related conditions. The Integrity Gel Support Brace may be used with or without Integrity's non-surgical spinal decompression systems and is an excellent treatment option for the patient to use at home.

In addition, Integrity Life Sciences has been exclusively granted the use of all of the technology, products, US Patent and Trademark Office's assignments, logos and other forms of intellectual property that were created by Axiom Worldwide, INC under the leadership of Jim Gibson from Tampa, Florida. The agreement specifically includes the flagship product DRX9000™, its family of products,

and all of its derivatives such as the DRX9000C. Integrity offers support for these products, which includes: sales, maintenance services, and repairs. Only Integrity Life Sciences is Registered with the US FDA as a Factory Authorized - Contract Manufacturer - for Axiom Worldwide and the DRX9000 True Non-Surgical Spinal Decompression Systems™

James Gibson, President of Integrity Life Sciences states "Our partners, in over 50 countries and territories, have the unique opportunity to present a cutting edge medical device, utilizing a clinically validated protocol that restores a patient's quality of life non-surgically and without pharmaceutical or invasive intervention". With a body of published clinical research from around the world will support and strengthen your sales presentation; members of our medical advisory board herald from prestigious institutions such as Johns-Hopkins and The Mayo Clinic just to name a few. In addition, partners will have confidence in a quality product that adheres to the stringent standards mandated by FDA, CE, and ISO. Sales, marketing, and technical training is offered in prestigious locations in Europe, Asia, the Middle East and throughout the United States.
