

DCL Joins NewTek Developer Network giving TriCaster users direct access to the DIGICASTER® Video Network

Integration with TriCaster gives broadcasters, content creators and sports properties direct access to the DIGICASTER® Video Network and any video destination

DAVIE , FLORIDA, UNITED STATES, April 12, 2016 /EINPresswire.com/ -- [DCL](#), today announced

“

Every day news, teams, and broadcasters use the DIGICASTER® Network to deliver content to customers. Our joint solution brings the power of the DIGICASTER® Video Network directly to TriCaster users.

Robert Mendes

that it is joining the NewTek Developer Network, a growing ecosystem of companies and products designed to optimize live production workflow. As part of its entrance into this network, DCL's [DIGICASTER®](#) Video Network is now integrated with NewTek's line of [TriCaster](#) multi-camera video production systems. The technical integration is designed to help content creators harness the power of the DIGICASTER® Video Network, a Global IP video delivery network, which features low latency, Broadcast quality and ease of use.

The TriCaster family of products eliminates the need for the purchase and installation of multiple separate components by integrating several functions into an easy-to-use and cost-

effective system. The integration allows NewTek customers to leverage DVN for global delivery of their content to broadcasters, distributors, affiliates, and agencies. The DIGICASTER® integration works within existing TriCaster workflows to easily and seamlessly deliver their content world wide.

"We are pleased to welcome DCL into the NewTek Developer Network," said Michael Kornet, Executive Vice President, Business Development for NewTek. "This integration provides our customers with tremendous new access to video destinations world wide for delivery of their video content for live broadcast and playout."

Robert Mendes, COO of DCL said: "Every day news organizations, sports teams, broadcasters and content producers use the DIGICASTER® Video Network to deliver content to their customers. Our joint solution brings the power of the DIGICASTER® Video Network directly to TriCaster users. NewTek is a driving force behind innovation in the broadcast space, and we are excited to be collaborating with them."
