

# OnPage Adds Critical Alerts and High Priority Messaging to Slack.

*OnPage, a pioneer in cloud-based incident management and IT alerting, launches Secure, Real-Time Priority Alerts for Slack.*

WALTHAM, MA, UNITED STATES, April 18, 2016 /EINPresswire.com/ -- The [OnPage](#) team is very pleased to offer The OnPage [Slack](#) Integration to complement its popular messaging app. OnPage and Slack coordinate all of your communications together in one place for real-time messaging, archiving and search for modern teams.

OnPage Adds Critical Alerts and High Priority Messaging to Slack

Leveraging the OnPage system allows two-way messaging within Slack which results in improved team and individual workflow communication. By combining the functionality of Slack with OnPage, you can keep teams up-to-date on incidents within the Slack channels that you already use and automatically trigger custom events in OnPage from Slack. Need secure one-on-one messaging from within a Slack chat? Private conversations are no problem with the Slack OnPage integrated system.

“

Easily select which Slack incidents trigger OnPage priority messaging to individuals or groups via a secure application on their mobile devices. Monitor delivery of alerts and responses in real-time.

*Judit Sharon, CEO of OnPage*

All organizations, [MSPs](#) and IT departments can select which Slack incidents trigger OnPage high priority messaging to individuals or groups via a secure application on their mobile devices. Users can also monitor delivery of alerts as well as responses in real-time from within SLACK. OnPage's Alert-Until-Read™ technology assures no more lost alerts that waste valuable time and money.

Key Slack / OnPage Integration Features:

- OnPage messages can be copied into a Slack Chat.

- Chat room invitations from Slack to OnPage
- High Priority / Low Priority Messages from Slack to OnPage
- Improved individual and team workflow.
- Automatically trigger custom two-way messaging.

What is Slack?

Slack is a messaging app. It's meant for teams and workplaces. Slack can be used across multiple

devices and platforms, and it's equipped with features that allow you to not only chat one-on-one with associates but also in groups. You're able to upload and share files with them too, as well as integrate with other apps and services such as OnPage, including Skype for video calls.

#### About OnPage:

OnPage is the industry leading system for High-Priority, Real-Time Enterprise Messaging, Cybersecurity Intrusion Compliance and IT Alert Management. Trusted by over 20,000 customers worldwide, OnPage's unique Round-Trip Priority Alerting™ addresses the need for critical incident response management and secure time-sensitive messages.

OnPage takes mobile communications to the next level with the latest all-in-one-app features, including the ability to set priority level for each message to ensure the High-Priority messages receive immediate attention. Additionally, the new web-based On-Call scheduling management tool enables enterprise users to plan ahead and route prioritized messages to the right person, on the right day, at the right time.

Thousands of IT Professionals, healthcare providers, doctors, field engineers, law enforcement, nurses, emergency responders and disaster recovery teams depend on OnPage rock solid reliability every day.

Leading corporations, including Blue Chip organizations have adopted OnPage for critical alerts and secure messaging.
