

# Squares by SkillGamesBoard Gives Online Board Games a Whole New Twist

*SkillGamesBoard has remastered Squares game originally implemented on ZX Spectrum in the early 80's. This new free game is full of helpful features.*

LONDON, UK, April 23, 2016

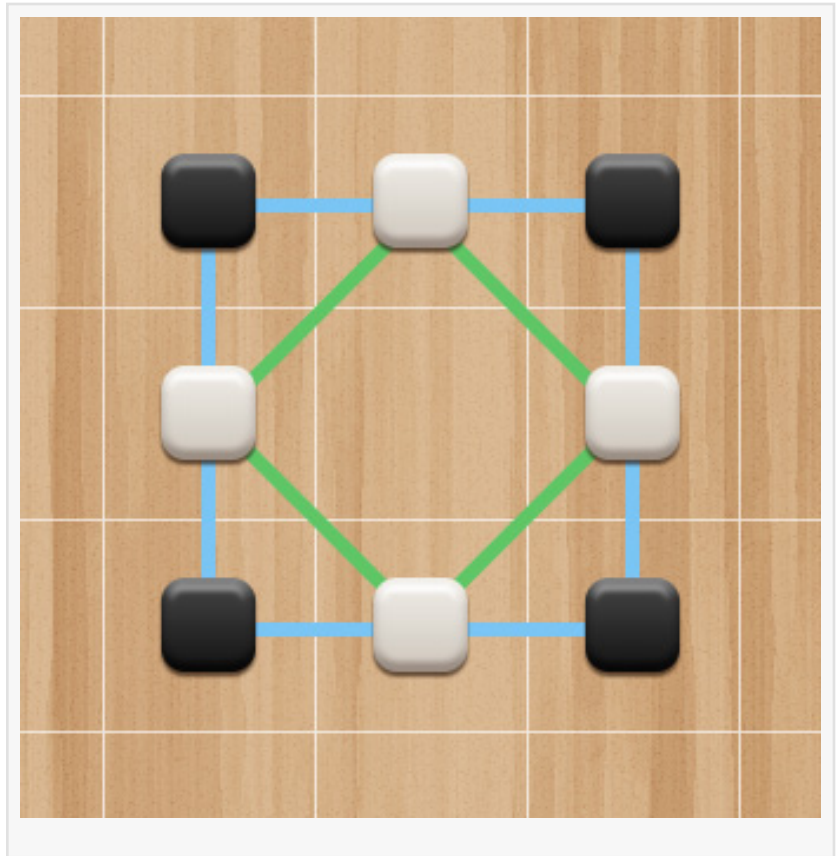

/EINPresswire.com/ -- The playground includes the unique skill game [Squares](#) which presents the remastered version of the game implemented on ZX Spectrum in the early 80's. Moreover, AOL subscribers used to play this game back in 1996-1997. Squares is played on a customizable board with 4x4 to 12x12 intersections. The name of the game is to place pieces to form squares of any size and at any angle.

Squares by [SkillGamesBoard](#) contains following convenient features which make the game much more attractive to the users:

- cross-platform interface;
- asynchronous gameplay option;
- adjustable playing field;
- optional position of a square;
- option to play anonymously;
- opportunity to play with friends or against computer;
- invitations via Facebook, Twitter, or Google+

The SkillGamesBoard team strives to improve constantly the games and to develop new ones taking into account users' desires. Thus, the company invites everyone to check out free online games and to leave comments, ideas, suggestions via one of the official social networks: Facebook, Twitter and Google+!
