

## eMobilePOS Featured at Intel's Executive Reception and Multiple Partner booths at TRANSACT 16

*e-Nabler teams up with Intel and several other partners at TRANSACT 16 to address the rapidly growing market for mobile checkout and payment*

FORT LAUDERDALE, FL, USA, April 25, 2016 /EINPresswire.com/ -- e-Nabler Corp., had a hectic week at [TRANSACT 16](#), April 19-21 in Las Vegas where [eMobilePOS](#), the company's flagship product was one of the featured mobile checkout and payment solutions at Intel's Executive Reception at the Delano Hotel Wednesday night. eMobilePOS ran on an 8" Hewlett Packard Windows 10 tablet and an 8" Dell Android tablet – both certified with eMobilePOS for maximum reliability and performance and with Intel Inside®.

"Our partnership with Intel is focused on bringing enterprise-grade POS solutions to the market and involves all hardware with Intel inside, including partners such as Dell, HP, Microsoft, and Samsung," said Joel Vázquez, President & CEO at e-Nabler. "It was a privilege to participate at Intel's VIP event and look forward to further developing the partnership in the future."

*Joel Vázquez, CEO and president of e-Nabler*

In addition, eMobilePOS was demonstrated in several partner booths in the TRANSACT exhibit hall, including Star Micronics, Handpoint, KOAMTAC, and AnywhereCommerce. e-Nabler also displayed Tupyx, the company's m-commerce and electronic wallet solution that is fully integrated with eMobilePOS.

### About e-Nabler/eMobilePOS

Founded in 2001, e-Nabler Corp., the company behind the award-winning eMobilePOS software, is one of the pioneers in mobile POS solutions and cloud-based software-as-a-service. eMobilePOS® turns Apple, Android, Windows 10 tablets and smartphones into full-feature POS systems. It is easily configurable, serving merchants in many different

environments, including specialty and mobile retail, fine dining and quick service restaurants, venue concessions, food trucks, field sales and service, and distribution and direct store delivery. Features include inventory controls, product attributes, modifiers, EMV mobile payments, online/off-line functionality, split tenders, order per seat, and customer awards to mention a few. A broad selection of peripherals enables eMobilePOS to adapt to different business environments and it interfaces with many popular accounting and ERP systems.

eMobilePOS was recognized with the “Best New Mobile App” by AT&T during CTIA in 2008 and was awarded RSPA’s Innovative Solution Award at RetailNOW 2011. For more information, please visit [www.eMobilePOS.com](http://www.eMobilePOS.com) or follow us on Twitter at @eMobilePOS and on Facebook.
