

# Geist record revenues in March, with a move to a new HQ thrown in for good measure

LINCOLN, NEBRASKA, USA, April 27, 2016 /EINPresswire.com/ -- March 2016 was certainly an eventful month for [Geist](#). Not only did output at their Lincoln manufacturing facility hit an all-time high, but they also managed that feat while moving to a new facility.

Said EVP Brad Wilson: "Not only did we produce a record amount of build-to-order PDUs, SwitchAir® cooling devices and Watchdog environmental monitoring units, but we also relocated to a bigger, brand-new custom-built premises.

"It is testament, not only to the fact that we have our lean manufacturing down to a fine art, but also that we have a team capable of moving a massive manufacturing infrastructure without any disruption to our customers. The move simply amplified our agility to produce power strips and associated hardware faster than any of our competitors."
