Onshape introduces App Store! How can this help you?

What is OnShape?
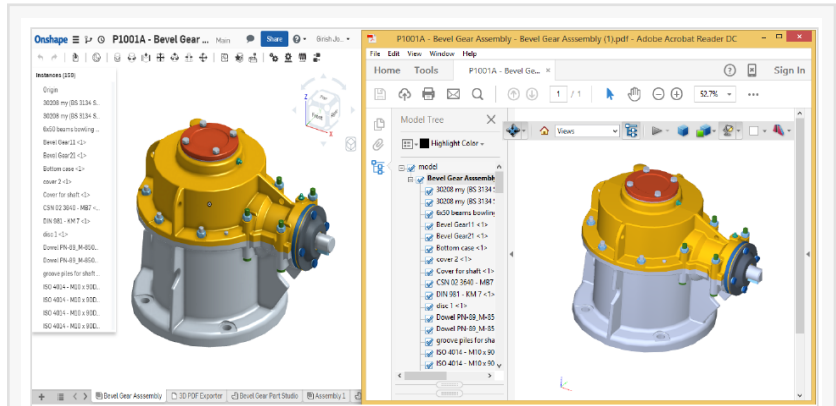

MIAMI, USA, April 28, 2016 /EINPresswire.com/ -- What is [OnShape](https://www.onshape.com/prototech)?
Onshape is the first and only full-cloud 3D CAD system that lets everyone on a design team simultaneously work together using a web browser, phone or tablet.

Benefits of Onshape-
1. Full featured CAD application.
2. No Installation, access using brower.
3. Work from anywhere, any place, any time and any device.
4. Inatantly share documents - just like you do on Google Docs.
5. No hefty license fee. Pay as you go.

You can sign up for free on onshape appStore from
https://www.onshape.com/prototech

What is in it for you?
As a CAD user
1. Free yourself from costly, machine dependent installed CAD app.
2. Collaborate with anyone on your design.As a Engineering Software Provider
1. Make your product available on Onshape App Store and get access to thousands of CAD users as your potential customers.
2. Cut the development time and investment by leveraging Onshape API framework.
3. Make your product affordable by offering different pricing models.

How can ProtoTech help?
ProtoTech is one of the early technology partners of Onshape and have released 3D PDF Exporter app for Onshape. This app allows the user of Onshape to export 3d PDF document (.pdf) file for Onshape part and share it with email. You can find more details about this app at http://prototechsolutions.com/Live/Onshape-3DPDFExporter.html

ProtoTech has a team of expert Onshape API developers who can quickly create an Onshape app from your current application or an idea. These Onshape apps can be developed in as less time as a month or 6 months on the higher end depending upon the complexity.
