99MerchantAccount.com is a wholesale credit card processor offering pass-through interchange pricing for small business owners. This means there is no extra rate added to the wholesale or interchange rate, the surcharge for each and every non-cash transaction. Whether a business accepts processed payments on-site, through [ecommerce merchant services](#), or elsewhere, various processing rates and fees are applied to each transaction. These can range from 2 percent to as much as 5 percent and differ depending on the type of credit card association (Visa, American Express, MasterCard), the issuing banks, (Wells Fargo, Citi, Chase), credit card processors, merchant account providers, and the payment gateways.

With so many entities involved, it's little wonder why accepting processed payments is so expensive. With 99 Merchant Account.com, businesses enjoy pass-through interchange pricing, meaning all common ancillary fees are forgone. Businesses also benefit from a no contract for 60 days trial offer and receive the best [credit card processing software](#) available.

With 99MerchantAccount.com, businesses are able to tap into reliable credit card processing while saving money month after month. The cost of doing business is steep enough, with substantial overhead, it's wise to reduce costs wherever possible.
