

Mike Shorts Named President of Canadian-Based Triangle Fluid Controls Ltd.

Durlon® Sealing Solutions Manufacturer Announces New President as Mike Shorts.

BELLEVILLE, ONTARIO, CANADA, May 5, 2016 /EINPresswire.com/ -- Triangle Fluid Controls Ltd. (TFC), Canada's premier [manufacturer](#) of industrial PTFE and semi-metallic gasketing products, named its new President as Mike Shorts, effective May 4, 2016. Through his dedication and overall performance to the company since its beginnings in 2008, Shorts transitions from company Vice-President and General Manager on to President. Upon TFC's inception, Shorts has created and executed a detailed strategic plan which has continued to significantly exceed expectations on domestic and global sales as well as profitability. Under Short's leadership, TFC announced expansion of its global headquarters a few months ago.

Transitioning from TFC President to company Chairman, David W. Moser, states, "As Triangle Fluid Control's business continues to become more dynamic and complex, we identified an immediate need for additional senior management and leadership capacity to keep pace with the industries we serve. Mike's contribution to the company over the years has been outstanding and we look forward to his continued leadership."

Armed with a BSc. in Geological Environmental Engineering as well as a MBA in Business from Queen's University, Shorts will oversee the global development of long and short term strategy, direct all internal operations, as well as financially manage the company. He currently serves as President of the Fluid Sealing Association, acts a spokesperson on the role sealing devices play in the mitigation of fugitive emissions as well as actively lobbies to have trade tariffs removed from sealing technology. He is frequently published in various trade magazines printed and distributed around the world.
