MINNEAPOLIS, MN, USE, May 11, 2016 /EINPresswire.com/ -- Since their launch in January, 2016, Safe-T-Ter-Tots has received over [500 customer reviews](#) from parents, grandparents and other care givers who have purchased their [Safe-T-Ter-Tots Child Safety Locks](#). One of the goals of Safe-T-Ter-Tots is to provide safety for babies and toddlers by hindering them from gaining easy and quick access to cabinets and drawers that might contain harmful items. In the blink of an eye, a child can get into serious trouble but these child safety locks prevent immediate, quick access to cabinets and other places where the safety locks are installed. While a child

is trying to figure out how to open the safety lock, those few seconds allow an adult to get to the child and take control.

These locks have been used on cabinet doors, cabinet drawers, dresser drawers, toilets, refrigerators, microwaves, trashcans, and some customers have even used these child safety locks to keep their pets out of the cabinets or the pet's food bin.
