

The future of fast jet technology and international cooperation in pilot training

Royal Air Force, NATO, and leading Air Forces to discuss future missions and challenges jet pilots will meet in the 21st century.

LONDON, SELECT STATE/PROVINCE, UNITED KINGDOM, May 26, 2016 /EINPresswire.com/ -- SMi's Military Flight Training conference returns to London on the 21st and 22nd September. With a focus on new techniques, technologies and aircraft to enhance piloting skills, this event provides the perfect platform to network with and learn from training commanders of leading Air Forces and flying branches in the world including the RAF, US Air Force, US Navy, Austria, Poland, South Africa, Sweden and NATO.

In addition to hearing from key experts at the forefront of technological developments for flight simulation, this year's event will feature [TWO exclusive panel discussions](#) with a focus on fast jet training and air force capabilities:

"Exploring the Future of Fast Jet Technology to Enhance Training Doctrine for Air Forces Amongst Allies" explores the latest technologies enhancing fighter piloting skills by looking into the integration of modern systems and adaptation of training techniques from today's younger, tech-savvy pilot cadets, as well as analysing the future missions and challenges jet pilots will meet in the 21st century.

“

Speakers represent the highest level of expertise on fast jet training and air force capabilities.

Air Commodore (Ret'd) Terry Jones, Royal Air Force
