

Higher Education Financial and HRM Market to Grow at a 15.57% CAGR Forecast to 2020

Wiseguyreports.com adds "Global Higher Education Financial and HRM Market 2016 Analysis and Forecast to 2020".

PUNE, INDIA, May 27, 2016 /EINPresswire.com/
-- About the [Higher Education Financial and HRM](#) Software Market

The global higher education financial and HRM software market consists of software solutions that are employed by institutions to improve the decision-making and productivity of employees and management of financial resources. The data collected from the software is further analyzed using analytics applications. The analysis is to ensure that an institution's resources are optimally used. HRM primarily focuses on planning, managing, and reporting of HR processes, along with recruitment and retention of good performers. Financial management software primarily focuses on providing real-time access to financial data such as procurement, accounts payable, and others. They provide stakeholders with specific financial information, which can help improve data-backed decision-making and strategies, and prioritize tasks.

Technavio's analysts forecast the global higher education financial and HRM software market to grow at a CAGR of 15.57% during the period 2016-2020.
