

Global Military Floating Bridge Market 2016 Share, Trend, Segmentation and Forecast to 2020

Wiseguyreports.com add report on "Global Military Floating Bridge Market 2016-2020" to its research database.

PUNE, INDIA, May 27, 2016 /EINPresswire.com/ -- About the [Military Floating Bridge](#) Market

Military floating bridges primarily include ribbon bridges and self-propelled floating bridges. The ground military personnel and the marine forces use these for missions, including sheltered water and river crossings in combat and rescue operations. These bridges can also be utilized for the transportation and mobilization of cargo and supplies and combat vehicles. Over the years, these bridges have gained importance in the global military organizations and are deployed in an adequate number across the globe.

The analysts forecast the global military floating bridge market to grow at a CAGR of 4.61% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global military floating bridge market for 2016-2020. To calculate the market size, the report considers the revenue generated from the sales of military floating bridges, including modular floating bridges (standard ribbon bridges and IRBs) and self-propelled floating bridges. Furthermore, the revenue generated from the modernization of existing floating bridge systems, and services (training) are covered. However, the revenue generated from amphibious bridge systems, bridge erection equipment, and ferry systems, and after-sales services are not considered.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Military Floating Bridge Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Table of content

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Supply chain system for military floating bridge market

PART 07: Value chain system for global military floating bridge market

PART 08: Market segmentation by product

- Global military floating bridge market: By products
- Global modular floating bridge market
- Global self-propelled floating bridge market

PART 09: Geographical segmentation

- Global military floating bridge market by geography
- Military floating bridge market in EMEA
- Military floating bridge market in Americas
- Military floating bridge market in APAC

PART 10: Market drivers

- Technological advancement in army
- Consideration of tactical employment of modern ribbon bridges
- Collaborative efforts to counter tension in MENA

PART 11: Impact of drivers

PART 12: Market challenges

PART 13: Impact of drivers and challenges

PART 14: Market trends

PART 15: Vendor landscape

- Competitive scenario
- List of vendors in global military floating bridge market
- AM General
- China Harzone Industry
- CNIM
- Jiangsu Bailey Steel Bridge
- General Dynamics
- RPC Technologies
- Recent developments

PART 16: Appendix

- List of abbreviations
