

Global Connected Vending Machine Market 2016 Share, Trend, Segmentation and Forecast to 2020

Wiseguyreports.com add report on "Global Connected Vending Machine Market 2016-2020" to its research database.

PUNE, INDIA, May 27, 2016 /EINPresswire.com/
-- About the [Connected Vending Machine Market](#)

The vending machine industry has started to evolve from traditional machines to intelligent, or connected, machines. The industry has gone beyond just delivering snacks and is developing new and sophisticated retail solutions. Connected vending machines, unlike traditional machines, are engaging shoppers like never before with touchscreen controls, audio, video, scents, gesture-based interaction, and cashless payment. These connected vending machines are used in company facilities, universities, retail stores, and hospitals. Connected vending machines sell a variety of goods such as computer accessories, gold bars, tickets, foods and beverages, and office supplies. The advances taking place in these machines are enabling operators to analyze time- and location-based data pertaining to sales, inventory, and customer preferences.

The analysts forecast the global connected vending machine market to grow at a CAGR of 23.25% during the period 2016-2020.
