

FindADoc's reach is Growing in Canada

FindADoc experiences exponential Growth in Canada

SHERBORN, MA, USA, May 30, 2016 /EINPresswire.com/ -- [FindADoc's](#) growth in Canada following its recent launch has been nothing short of astounding. FindADoc is established in the US as the nation's longest established Internet resource for finding Doctors, Dentists and Chiropractors on the Web. The FindADoc database includes well over 1.25 million doctors in the USA and now over 150,000 Health Care Professionals in Canada. These doctors and dentists are listed by geographical location and specialty and are rated using a proprietary FindaDoc algorithm.

FindADoc is available on the website FindADoc.com as well as on mobile platforms, where GPS enabled searches can be performed on iPhone, iPad or Android apps in the USA and in Canada. The BLUE SPOT on the FindADoc apps automatically locates the Street, Town or City and allows searches for doctors of any specialty in the area. Clicking the phone icon connects directly to the

doctor's office!! Using the iSTANDBY feature (see below) as an option, potential patients can locate doctors with immediately available appointments and often at large discounted fees!!

Since its launch in Canada last February, web traffic in Canada has grown exponentially. According to the latest [Google Analytics figures](#), searches for Canadian Doctors, Dentists and Chiropractors as of today is 59.82 percent of total, exceeding the 25.12 percent for the USA. This reflects a vacuum in the healthcare lead-generation space in Canada. FindADoc may have fortuitously been sucked into an ideal digital home market. Good fortune aside, FindADoc has also paid meticulous attention to giving the Canadian consumers exactly what they want.
