

Malaysia ready for next gen transport upgrade

4th Annual Malaysia Rail 2016 to delve into ongoing developments and discuss the current and forthcoming rail projects in South East Asia.

KUALA LUMPUR, MALAYSIA, May 31, 2016 /EINPresswire.com/ -- Current investment plans of RM160b on railways by the Malaysian Government, is a clear indication of positive expansion of the railway infrastructure to begin sometime this year. As the two governments, Malaysia and Singapore, are going ahead with the proposed KL-Singapore high speed rail project, this will change the dynamics of transportation for betterment within the region and reduce travel time to a great extent for passengers.

Supported by the by Suruhanjaya Pengangkutan Awam Darat (SPAD), the 4th Annual Malaysia Rail 2016 to be held on 25 – 26 July 2016, will discuss the state of development and trends in benchmarking for the Malaysian railways in operational parameters. The conference will focus on next generation policy, procedural and regulatory initiatives needed to attract investments in the railway sector.

Being the 4th Annual industry event, we look forward to a gathering of the best in the rail transport infrastructure business to be joining us and gaining valuable insight to enhance business capabilities in the Asian market. Silvester Prakasam, Director of Fare Systems at Land Transport Authority (LTA) will address the audience on the relevance of account – based ticketing in Asian transit systems. Representing Prasarana Malaysia Berhad, Puan Norlia Noah, Project Director Ampang Line LRT3 will provide an insight on LRT3 and LRT line extension project in the Klang Valley.

An array of topics from Guangzhou-Shenzhen-Hong Kong Express rail link to Southern Corridor high speed rail - Kuala Lumpur – Singapore Route will equip the attendees with a detailed analysis of the current status of the projects. This conference will also lend a platform for technology upgradation and joint ventures with equipment manufacturers. 4th Annual Malaysia Rail 2016 will delve into ongoing developments and bring all the key stakeholders under one roof to discuss the current and forthcoming rail projects in the region.
