

Sika Further Strengthens the Brand in China

Sika China has now successfully completed the integration of its three acquired local entities which further strengthens the Sika brand in the China market.

SUZHOU, JIANGSU, CHINA, May 31, 2016 /EINPresswire.com/ -- Pursuant to our last joint venture's name change to [Sika](#) (Hebei) Building Material Ltd. in April, 2016, [Sika China](#) has now successfully completed the integration of its three acquired local entities which further strengthens the Sika brand in the China market.

Sika Further Strengthens the Brand in China

Sika (Sichuan) Building Material Ltd.

(previously Sichuan Sika Keshuai Building Material Ltd.), located in Chengdu Xinjin Industrial Park, is now fully owned by Sika. With an area of 40,000 square meters, the company mainly produces concrete admixtures and other building materials as well as providing complete technical solutions. After years of development, Sika (Sichuan) Building Material Ltd. has formed a comprehensive array of systems for production and compounding. These systems include high-range, polycarboxylate superplasticizers, ordinary superplasticizers, pumping aids and more than 20 other kinds of liquid and powder products with an annual production capacity of 200,000 tons. The company also supplies other building materials, including SikaGrout, Sikafloor, waterproofing mortar, and fireproofing coating etc. Sika (Sichuan) Building Material Ltd. has become an important production base of Sika in the West China Region.

Sika (Jiangsu) Building Material Ltd. (previously Jiangsu Sika TMS Building Material Ltd.), located in Zhenjiang, Jiangsu Province, was established in 1992. The company has developed from a military enterprise, to a private company, then to a joint venture and now as a foreign wholly owned company. After years of development and innovation, it has formed a complete system consisting of research and development, scale production, selling activities and professional technical services. Covering an area of 60,000 square meters, the company has eight production and compounding workshops with an annual capacity of over 300,000 tons of various concrete admixtures. Sika (Jiangsu) Building Material Ltd. has become an important production base of Sika in the East China region.

Sika (Hebei) Building Material Ltd. (previously Hebei Jiuqiang Building Material Ltd.), located in Zhengding County, Hebei Province, was established in 1988 with an area of 24,000 square meters. Upon acquisition, Sika introduced the newest high-range polycarboxylate water reducers which dramatically improved the company's competitiveness! With an annual capacity of over 200,000 tons of various concrete admixtures, Sika (Hebei) Building Material Ltd. has become an important production base of Sika in the North China region.

With full integration of the 3 companies, a robust national network has been established with extensive coverage of the major construction markets in China. This network provides the opportunities for Sika to further expand its business in the dynamic Chinese market for years to come
