

Aptora® Releases Total Office Manager® for the Smart Phone

The secret to this product is the server side software. It connects the company's accounting files to a long list of smart phone devices.

LENEXA, KS, USA, May 30, 2016
/EINPresswire.com/ -- Aptora® Releases Total Office Manager® for the Smart Phone

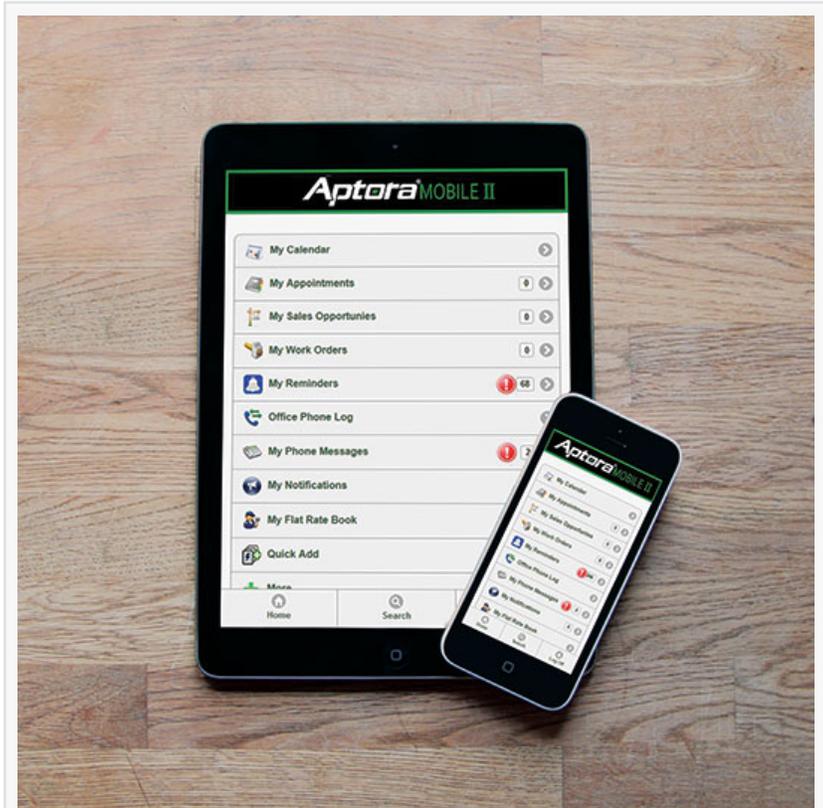

LENEXA, KS – Aptora Corporation announced a new product that will allow those who own Total Office Manager to view business information from an iPhone®, iPad™, Android™, or BlackBerry® device. It is called Aptora Mobile™.

“This has been the largest and most complex work Aptora has ever been involved in. The trick was creating a fast software program that “understood” what device it was connected to and adjust itself accordingly.” Says James R. Leichter, company President. James goes on to say “Aptora Mobile is incredibly fast, because all of the data processing takes place on the server and not the smart phone”.

This software uses newly developed technology from 1AirData LLC that is licensed to Aptora Corporation. The secret to this product is the server side software. It connects the company's accounting files to a long list of smart phone devices. Each connection is customized to precisely match the capabilities and security of each smart

phone. For instance, when Aptora Mobile connects to an iPad, the software adjusts itself to take advantage of the iPad's exceptional screen size and performance.

Pricing starts at just \$2,499.00 for five users and there is a small annual fee. For more information and a free demo, go to www.aptora.com/mobile
About Aptora

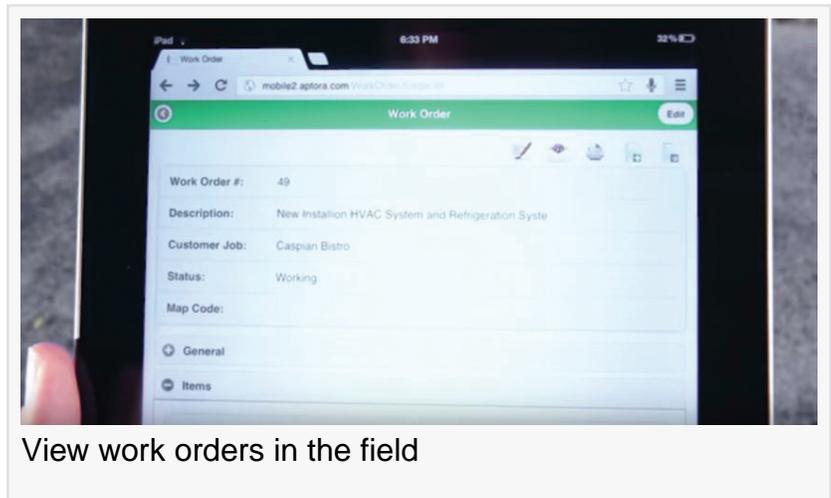

Field service management software on mobile devices

Collect payments and capture signatures in the field

Aptora specializes in service industry software, perhaps best known for its flagship products Flat Rate Plus® and Total Office Manager®. Since 1995, Aptora has been a leader in flat rate pricing software and pricing books for service businesses. Total Office Manager brings together accounting, dispatching, scheduling, payroll, and inventory control into a single, easy to use program. It allows contractors to make better management decisions by knowing exactly where they are making and losing money in their company.

For more information on Aptora's products and services, call 1-877-232-7978 or visit the company's website: www.aptora.com
