

Aesthetic Plastic Surgery & Med Spa of Naples Officially Opens New Clinic

Kent V. Hasen, M.D., has moved his Naples cosmetic surgery practice to a larger, custom-built space near Grey Oaks to better serve his patients.

NAPLES, FL, USA, May 28, 2016 /EINPresswire.com/ -- The custom-built office building where Dr. Kent V. Hasen (www.drhasen.com) recently moved his Naples cosmetic surgery clinic features expanded services in a space that is nearly 3 times the size of the previous location.

"We have a full medical spa, in addition to more treatment rooms and a larger operating room suite with overnight facilities for patients to recover comfortably and safely," says Dr. Hasen, board-certified plastic surgeon and medical director.

The name of the practice itself -- Aesthetic Plastic Surgery & Med Spa of Naples -- recently evolved to reflect the addition of advanced nonsurgical and minimally invasive surgical options that have been added to the menu of services. Dr. Hasen says the state-of-the-art building reflects the practice philosophy of offering patients the most advanced, clinically proven aesthetic procedures available.

"We've created an office that not only includes the most advanced technology available today, but that is actually designed to accommodate future technological advances, as well," Dr. Hasen says. "All the rooms are connected and the whole office is automated, including door locks, cameras, background music, air conditioning, and lighting control."

The 7,600-square-foot office is on Airport Pulling Road North, across from Grey Oaks. Dr. Hasen says his practice has steadily grown, both in the services offered and the number of staff, which now includes a physician assistant, an aesthetician, cosmeticians, laser specialists, and massage therapists.

"We simply outgrew our old facility, which served our patients very well for a long time," Dr. Hasen says. "I'm very proud of the new facility. The color scheme and furniture give it a much lighter feel, and it is much more calming and inviting. The extra space means we will be able to see patients in a timelier manner than we could at our previous office."

As medical director, Dr. Hasen directly oversees the med spa. But he will continue focusing on the aesthetic surgery specialties, such as breast augmentation, tummy tucks, and liposuction,

that attract patients to Naples from throughout Florida and the nation.

Dr. Hasen says the new office will accommodate future growth as he adds services and new members to his team.

"Planning and paying attention to the details is an important part of plastic surgery," he says. "We used those same skills to create what I believe is a beautiful and comfortable office designed with patients' needs as our top priority."

###

Kent V. Hasen, M.D., (www.drhasen.com) is a Naples, Florida, plastic surgeon and medical director of a full-service aesthetic plastic surgery and cosmetic practice, which has developed a strong reputation in South Florida since opening in 2002.
