

# ITpreneurs Expands its COBIT® Training Content Portfolio with New Titles

*Offering training and consulting providers high quality, low barrier, easy-to-access course materials*

ROTTERDAM, THE NETHERLANDS,  
June 9, 2016 /EINPresswire.com/ --

ITpreneurs, the leading provider of IT training content and services, is pleased to announce the release of new titles in its COBIT® portfolio. Working with IT training providers is ITpreneurs core business. With thousands of titles available “off-the-shelf” in key IT

domains, and a full range of support services, you can quickly, easily broaden your portfolio and create new revenue without investing in in-house content development and maintenance. The newly released titles in ITpreneurs courseware library feature:

COBIT Game - Direct-it by [Simagine Business Simulations](#)

Governance can be an abstract concept and difficult to understand or even apply in your daily work. Direct-it is an energizing simulation and will make the high level and strategic concepts of IT Governance visible and understandable. The COBIT framework is used as a guidance and structure in the gameplay. It can be played stand alone or become part of a 3-day COBIT Foundation course.

Combining ITIL® and COBIT for Service Management Improvement

This management workshop is developed by Gary Hardy, one of the originators of the COBIT framework and lead developer of all COBIT versions, including COBIT 5. When ITIL and COBIT are used together as complementary tools, they can provide an even more powerful solution to an organization's service management needs. This ITIL and COBIT course focused on the strategic-level use of best practices to guide service management improvements.

Implementing NIST with COBIT5

This course is also developed by Gary Hardy. It covers the context and nature of cybersecurity risks and how to manage these risks using the NIST Cybersecurity Framework together with COBIT 5. ISO/IEC 27000 is also covered in this course for the benefit of those using that standard or interested in applying it in an IT Security Management System.

ITpreneurs COBIT5 Portfolio

ITpreneurs courseware library is easily accessible and features a robust and complete COBIT5 portfolio available in multiple delivery format and languages. ITpreneurs ready-to-use content ensures that you have high-quality training content, in the latest version, ready to use - right now.
