

Automotive Expert & Car-Talk Host Bobby Likis Talks with Andy Wicks, DynoTune Speed & Performance

A Pair of Automotive Experts Discuss the Power and Performance of Ethanol-Blended Fuels

PENSACOLA, FL, USA, June 10, 2016 /EINPresswire.com/ -- Bobby Likis, automotive expert and host of nationally syndicated car-talk program "[Bobby Likis Car Clinic](#)," shares the mic with Andy Wicks, Founder and Owner of [DynoTune Speed & Performance](#), on Saturday, June 11, at 11:41a ET.

With a background in mechanical engineering and experience as an ASE-Certified Master Technician and Automotive Service Center Manager, Wicks supercharged his passion for horsepower and engine performance when he opened DynoTune Speed & Performance which specializes in high-performance, fuel-injected engines; Corvette, Camaro, Mustang modifications including supercharger installation; engine modifications; and custom fuel-injection programming. Conservatively said, Wicks is an engine, power and performance expert.

This Saturday, Wicks will brief listeners and viewers on the Car Clinic Network about the impact of ethanol-blended fuels on engine, power and performance. Likis will toss questions to Wicks about octane, automotive on-board computers and emissions, as consumers power up their auto-know, enabling them to make educated decisions at the dealership and at the polls.

Says Wicks, "I love engines, and I know

every inch of each one as I build, modify or tune it. I know fuels and the effect different blends have on those engines. I'm glad to join Bobby in dispelling myths about ethanol so consumers can make more informed decisions."

Likis remarks, "With clear evidence of the positive effect of ethanol on automotive engines and on the environment as presented by engine experts like Andy, people are smart enough to separate facts from sensationalism and myths. We'll talk lots of facts on Saturday."

To view Wicks's interview in its entirety, including photos and video, visit WatchBobbyLive.com on Saturday, June 11, at 11:41a ET.
